การใช้งานเว็บไซต์ Master Journal List

The screenshot shows the homepage of the Master Journal List on the Web of Science platform. The browser address bar shows <https://mjl.clarivate.com/home>. The page features a search bar with the text "Chemical Engineering Journal" and a "Search Journals" button circled in red. A yellow box on the left points to the search bar with the text "2. พิมพ์ชื่อวารสารใน Box Search". Another yellow box on the right points to the "Search Journals" button with the text "คลิก Search Journals". Below the search bar, there is a section for "Already have a manuscript?" with a "Match Manuscript" button. The page also includes a "Browse, search, and explore journals indexed in the Web of Science" header and a "Related products" section with three image thumbnails. The Web of Science Group logo is in the top left, and "Login" and "Create Free Account" buttons are in the top right.

Impact

Authors choose a particular journal to submit to for a variety of reasons; one of the most important is the quality or impact of the journal. Journal Insights determines impact using several different metrics, all of which are statistically sound, and provide authors with valuable information to support their selection. You can also use text-based Elsevier JournalFinder, helping you to find journals that could be best suited for publishing your scientific article: <http://journalfinder.elsevier.com/>

Speed

We know how important speed of publication is to authors considering where to publish, especially in fast moving research areas. These speed metrics (if available in Journal Insights for this title) are displayed: - The average number of weeks it takes for an article to be reviewed - The average number of weeks it takes for an article to reach key publication
